## TECHNOLOGICAL TRANSFER FOR LOGISTICS INNOVATION IN MEDITERRANEAN AREA

**FIND US  
ONLINE**

## About

# TECHLOG

**TECHLOG** - Technological Transfer for Logistics Innovation in the Mediterranean area - is an EU funded ENI CBC MED project intending to strengthen research- and-industry ties by facilitating technology transfer. Its final objective is to contribute to the expansion and modernization of Mediterranean transportation economics.

9 partners from 5 Mediterranean countries are collaborating to create a permanent Cross-Border space, inspired by Open Innovation, where research organizations and (trans)port industries can co- create, test and share new Technology Transfer Initiatives.

## Impact

**TECHLOG** will deliver tangible, durable, and enduring results at local and regional levels that will be made visible by

- Developing a cross-border Med **Open Lab** aimed at facilitating knowledge sharing and joint technology transfer initiatives
- Creating a **reference point** for trans(port) operators & institutions
- Formulating a **joint proposal** to policymakers for a shared Mediterranean qualification standard using advanced simulators

**2 LIVING LABS SUPPORTING  
TECHNOLOGY TRANSFER**

**1 TRAINING COURSE FOR  
10 INNOVATION TRAINERS**

**16 TRANS(PORT) COOPERATIONS BETWEEN  
ENTERPRISES AND RESEARCH INSTITUTIONS**

## Beneficiaries

- Port authorities
- Terminal operators
- Research centers in the field of advanced simulation
- Dockworkers
- Transport and logistics operators
- Truck drivers

## Timeframe

*Start*

**JULY 2021**

*End*

**DECEMBER 2023**

**TOTAL BUDGET**

**3.5 MILLION €**

**EU CONTRIBUTION**

**3.1 MILLION €**

**90%**

**TECHLOG** will improve research-industry ties in the (trans)port sector by creating a permanent cross-border EU-Med space where research organizations and (trans)port enterprises may collaborate to invent, test, and exchange new Technology Transfer Initiatives based on advanced simulation technology.
